**RESPONSE TO RESTRICTION REQUIREMENT WITH TRAVERSE
AND SECOND PRELIMINARY AMENDMENT**

Dear Sir:

This is in response to a May 29, 2009 restriction requirement in which the examiner
identified three groups of claims subject to restriction as follows:

Group I – claims 1 to 12 are drawn to a milking machine cylinder.

Group II – claims 13, 14, 16 to 22 are drawn to a milking unit cylinder.

Group III – claims 24 to 26 are drawn to a method for automatically starting a milking
process.

Applicant: Stolte et al.
Application No.: 10/576,645

To traverse the restriction requirement, Applicants amend herein, independent claim 1 to correct an obvious error in the preamble and to add an element that renders all of the pending claims a single inventive concept under PCT Rule 13.1, as described in more detail in the Remarks section below.

This response is timely filed because it is accompanied by a One-Month Extension of Time and the appropriate fee.
